

ROYAL OAK NEIGHBORS, LLC.

NOW IS THE TIME TO INVEST IN OUR FUTURE...

We need to raise \$15,000 to have professional services assist us in opposing the developer's plan. Without this, the developers can bring in all their experts and describe in great details why their plan is the greatest thing since sliced bread, and all the citizens get is 3 minutes to voice an objection. We need to show the city why our objections matter. Donating is easy and can be done by check, cash, or electronically. We will appreciate any amount you can afford to give. Consider how much you will lose in the value of your home if this plan goes through. Many of us will lose well over \$100,000 in property value if the city approves the plan. Compared to that loss, a donation of \$100 would be a small price to pay. Skip a meal out and give that money to the cause. Don't regret not doing all you can now while you still have the chance.
